Demonstrated strong problem-solving abilities and teamwork while mastering programming languages such as Java and Python. Quick learner committed to delivering effective solutions and improving user experiences in a collaborative environment.

Skills

- Teamwork and collaboration • Quick learner
- Problem-solving • Computer skills: Java, JavaScript, Python, C • Organizational Skills

Experience

Intern, 07/2023 to 08/2023

Los Alamitos High School – Los Alamitos, CA

IT internship at my high school. Only one other student in the computer science classes got to accompany me. We organized and set up technology around the campus for the upcoming school year, and got to shadow some of the IT department.

Volunteer, 08/2023 to 06/2024

Los Alamitos

Helped volunteer with a group called Girls In STEM, the volunteer group of the club Women In STEM. Helped teach girls ages elementary through middle school about various areas of STEM. Specialized in teaching coding through platforms like Scratch.

Volunteer, 06/2020 to 09/2022

Los Alamitos

Volunteered at a youth summer camp, Camp Shark, through my local youth center. Volunteered 3 consecutive summers for a total of 950 hours. Watched over the children, created entertaining activities for both physical and mental aspects of the children, and supervised these activities. Also helped with organization and cleaning when needed.
